

(Papst) Franziskus als „Heiler“: BdW-Prophezeiung hat sich erfüllt! (Papst) Franziskus „heilt“ – (Pope) Francis „heals“: Massenmanipulation

Einleitung

In einer Botschaft vom 21. Januar 2012 (also als Benedikt XVI. noch Papst im Amt war) hatte Gott der Menschheit Folgendes über den Nachfolger von Papst Benedikt XVI. gesagt:

„Es wird auch so erscheinen, als ob er [der Nachfolger von Papst Benedikt XVI., also (Papst) Franziskus] übernatürliche Gaben hätte, und die Menschen werden sofort glauben, dass er Wunder vollbringen kann.“

(Nachzulesen ist die gesamte Botschaft Nr. 320 auf dasbuchderwahrheit.de, empfangen durch die begnadete irische Seherin namens „Maria von der Göttlichen Barmherzigkeit“.)

**Obige („Buch der Wahrheit“, BdW-)-Prophezeiung hat sich mittlerweile erfüllt !!!
Denn: (Papst) Franziskus wird der Welt als „HEILER“ präsentiert (= Massenmanipulation)!
Dies zeigt einmal mehr:
Gott sagt durch das „Buch der Wahrheit“ (dasbuchderwahrheit.de) die Wahrheit!**

In der Tat: Die Medien tun so, als ob (Papst) Franziskus „übernatürliche Gaben“ habe.

Und: Die Menschen glauben, dass „er Wunder vollbringen kann“.

Wichtig: In der oben genannten Botschaft heisst es, es werde „so erscheinen, als ob“ er übernatürliche Gaben hätte. **Das heisst: Es ist in KEINER WEISE BEWIESEN, dass er diese Gaben hat! Auf alle Fälle hat er keine „Heilergabe“ vom hl. Geist!** Denn, wie die Bibel lehrt: An den Früchten solle man die Guten bzw. die Schlechten erkennen... (Papst) Franziskus führt die Kirche ins Verderben... Wer denkt, Gott habe einen Kirchenzerstörer auserwählt, um Menschen zu heilen, denkt nicht sehr weit...

Wichtig:

Obige göttliche Botschaft aus dem „Buch der Wahrheit“ wurde lange VOR der Papstwahl Bergoglios („Franziskus“) veröffentlicht (Dies lässt sich belegen! Dies können Abertausende Leser weltweit bestätigen! Unter anderem meine Wenigkeit.)

UND:

Ebendieses obige Botschafts-Zitat wurde auch in einem Leserbrief im „Volksblatt“ veröffentlicht (und zwar am 7. März 2013, also 6 Tage VOR der Papstwahl! Siehe Zeitungsarchiv).

Nochmals, dies beweist: Gott spricht in dieser so wichtigen Zeit durch „Das Buch der Wahrheit“ (buchderwahrheit.de) zu uns!

Untenstehend sehen Sie über 40 Zeitungsartikel etc. aus dem Internet. Diese belegen, dass die Medien (Papst) Franziskus der Welt als „Heiler“ verkaufen. (Leider machen auch christliche Nachrichtendienste bei dieser Propaganda bzw. Massenmanipulation mit.)

Während die Medien etwa Papst Joh. Paul II. und Papst Benedikt XVI. unablässig kritisierten und durch den Dreck zogen, wird (Papst) Franziskus (schrittweise) via Medien zum respektablen Heiler „hochstilisiert“ bzw. „aufgebaut“.

Wenn man da nicht realisiert, dass etwas ganz gewaltig faul ist an der Sache, ist man ganz einfach verblendet.

Siehe untenstehend die Belege für die Propaganda/ Massenmanipulation:

Tumor nach Kuss vom Papst weg

Posten Sie (0) Welt > Weltchronik

Gianna war dem Tode geweiht, nach einem Segen vom Papst ist sie wieder kerngesund.

„Wir hatten keine Hoffnung mehr, wir beteten um ein Wunder“, sagen die Eltern der kleinen Gianna (4). Das Wunder ist geschehen, der Hirntumor verschwunden: „Es geht ihr wunderbar, sie beginnt jetzt mit dem Kindergarten“, so die Eltern.

Verrückt. Dr. Philip Storm, Chef der Kinder-Neurochirurgie im Kinderspital von Philadelphia: „Als ich sie mit vier Monaten operierte, hätte ich alle für verrückt erklärt, die mir erzählt hätten, dass Gianna in den Kindergarten kommt.“

Es wird das „Wunder der Market Street“ genannt. Gianna ist jetzt kerngesund. 2014, kurz nach ihrer Geburt, diagnostizierten die Ärzte einen Hirnstammtumor. Keiner glaubte, dass sie ihren ersten Geburtstag erleben würde. Die Familie plante schon die Beerdigung.

A toddler diagnosed with a brain tumour is said to be healthy again nearly three years after being kissed by Pope Francis.

Gianna Grace Masciantonio, three, was diagnosed with histiocytosis, a rare blood disorder that caused lesions on her brain cell and made it impossible for surgery to be done on it.

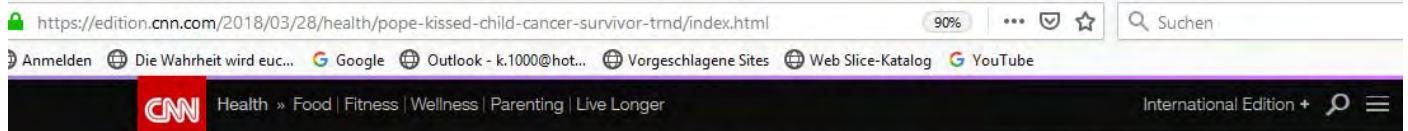

After undergoing chemotherapy over a period of time, Gianna beat the odds and is now in good health, ready to begin preschool, according to CBS Philadelphia.

BROOKLYN - A paralyzed girl from Bath Beach says her meeting with Pope Francis set off her process of healing.

Julia Bruzzese, 13, spent months in pain, partially paralyzed by an unknown illness. She was then diagnosed with Lyme disease and is now receiving treatment for her ailments.

Turning to her faith, Bruzzese's diagnosis and road to recovery only came after she was blessed by Pope Francis in 2015, she says. It led to neighbors and strangers reaching out to help emotionally and financially.

US Infant with rare brain tumor kissed by Pope ‘miraculously’ recovers

INQUIRER.net / 12:15 PM June 01, 2016

A family in Philadelphia, United States, feels blessed with a “miracle from the heavens” as their sick infant daughter is recovering fast after she was kissed by Pope Francis in 2015.

Two months after her birth, Gianna Masciantonio was diagnosed with juvenile xanthogranuloma, a rare form of histiocytosis, or tumor in her brain stem. Doctors told family members that their “little angel” had little chances of survival.

Many families are claiming that Pope Francis has healed their children.

Parents of 1-year-old Gianna Masciantonio of Philadelphia, USA claim that their daughter's tumor was partially healed after she received a kiss from Pope Francis.

The advances of modern technology are providing more solutions to previously hopeless medical conditions. However, there are still cases that have very limited treatment

The Healing Pope: List of miracles performed by Pope Francis

Hazel Torres Posted On: 24th Nov 2015 11:36:35 GMT +0300

Pope Francis may yet earn the accolade "The Healing Pope" for the miracles he has been performing when touching people with serious health problems.

When the Pope flew to New York last week as part of his six-day apostolic visit to the United States, he once again showed his healing power when he blessed a 12-year-old girl who was one of those who greeted him at JFK Airport, The Gospel Herald said.

Pope Francis touches the face of 12-year-old Julia Bruzzese at the JFK Airport in New York on Sept. 24, 2015.

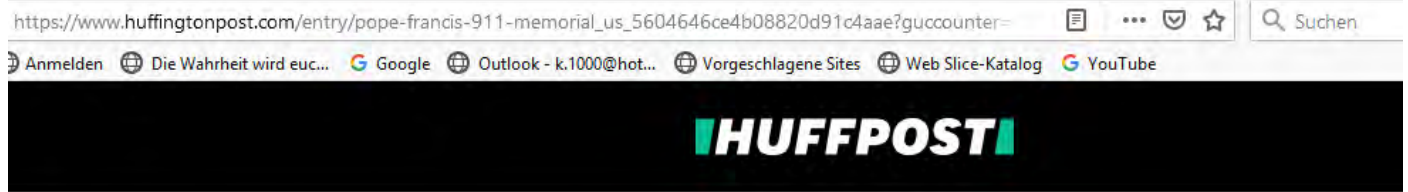

Pope Francis may yet earn the accolade "The Healing Pope" for the miracles he has been performing when touching people with serious health problems.

When the Pope flew to New York last week as part of his six-day apostolic visit to the United States, he once again showed his healing power when he blessed a 12-year-old girl who was one of those who greeted him at JFK

PHOENIX -- "The Pope healed our baby's heart."

Lynn Cassidy has no other words to explain what happened to her 3-month-old daughter Ave. Ave was born with Down syndrome, eye problems and hearing complications. Most concerning were the two holes in her heart.

"It seems like it was really meant to happen," Lynn said. "And it's as close to a miracle as we'll ever see, I'm sure."

COLOMBO, Sri Lanka -- Pope Francis brought calls for reconciliation and justice to Sri Lanka on Tuesday as he began a weeklong Asian tour, saying the island nation can't fully heal from a quarter-century of brutal civil war without pursuing the truth about abuses that were committed.

The 78-year-old pope arrived in Colombo after an overnight flight from Rome and immediately spent nearly two hours under a scorching sun greeting dignitaries and well-wishers along the 28-kilometre (18-mile) route into town. The effects were immediate: A weary and delayed Francis skipped a lunchtime meeting with Sri Lanka's bishops to rest before completing the rest of his

Pinoys look forward to meeting ‘healing Pope’

Published December 17, 2014 10:25pm

With Pope Francis having earned a reputation as a healing pope, many Filipino families hope to experience his healing touch when he visits the Philippines in January.

Several Filipinos experiencing various hardships also hope to be spiritually healed by the Pope, GMA News' Jessica Soho reported on "24 Oras" on Wednesday.

"Natawagan siyang healing pope, healing of relationships. Sinabi niya, the Church is like a field hospital where the wounds of humanity are treated," said Fr. Francis Lucas, executive director of the Catholic Media Network.

Pope Francis has time and again showed solidarity with the sick, going out of his way several times to bless them.

In one instance, he had his vehicle stop in Calabria in Italy, just so he could get off and approach a sick woman.

Pope Francis's healing, loving revolution is unstoppable

A minority of bishops clings to conservative ways but the Catholic church is slowly changing and will be holier for it

The remarkable gathering of global Catholic leaders in Rome that ended on Saturday has mostly been filtered through a political lens, as a debate between factions. Thus the hopes of gay people and the divorced were raised by a swing to the liberals but dashed by the conservatives reasserting themselves. But that doesn't capture what happened. The actual dynamic was more complex, and very different.

Pope Francis' Sunday in Albania expected to bring hope, healing

By Carol Glatz, Catholic News Service - 19 September 2014, 15:43 190 0

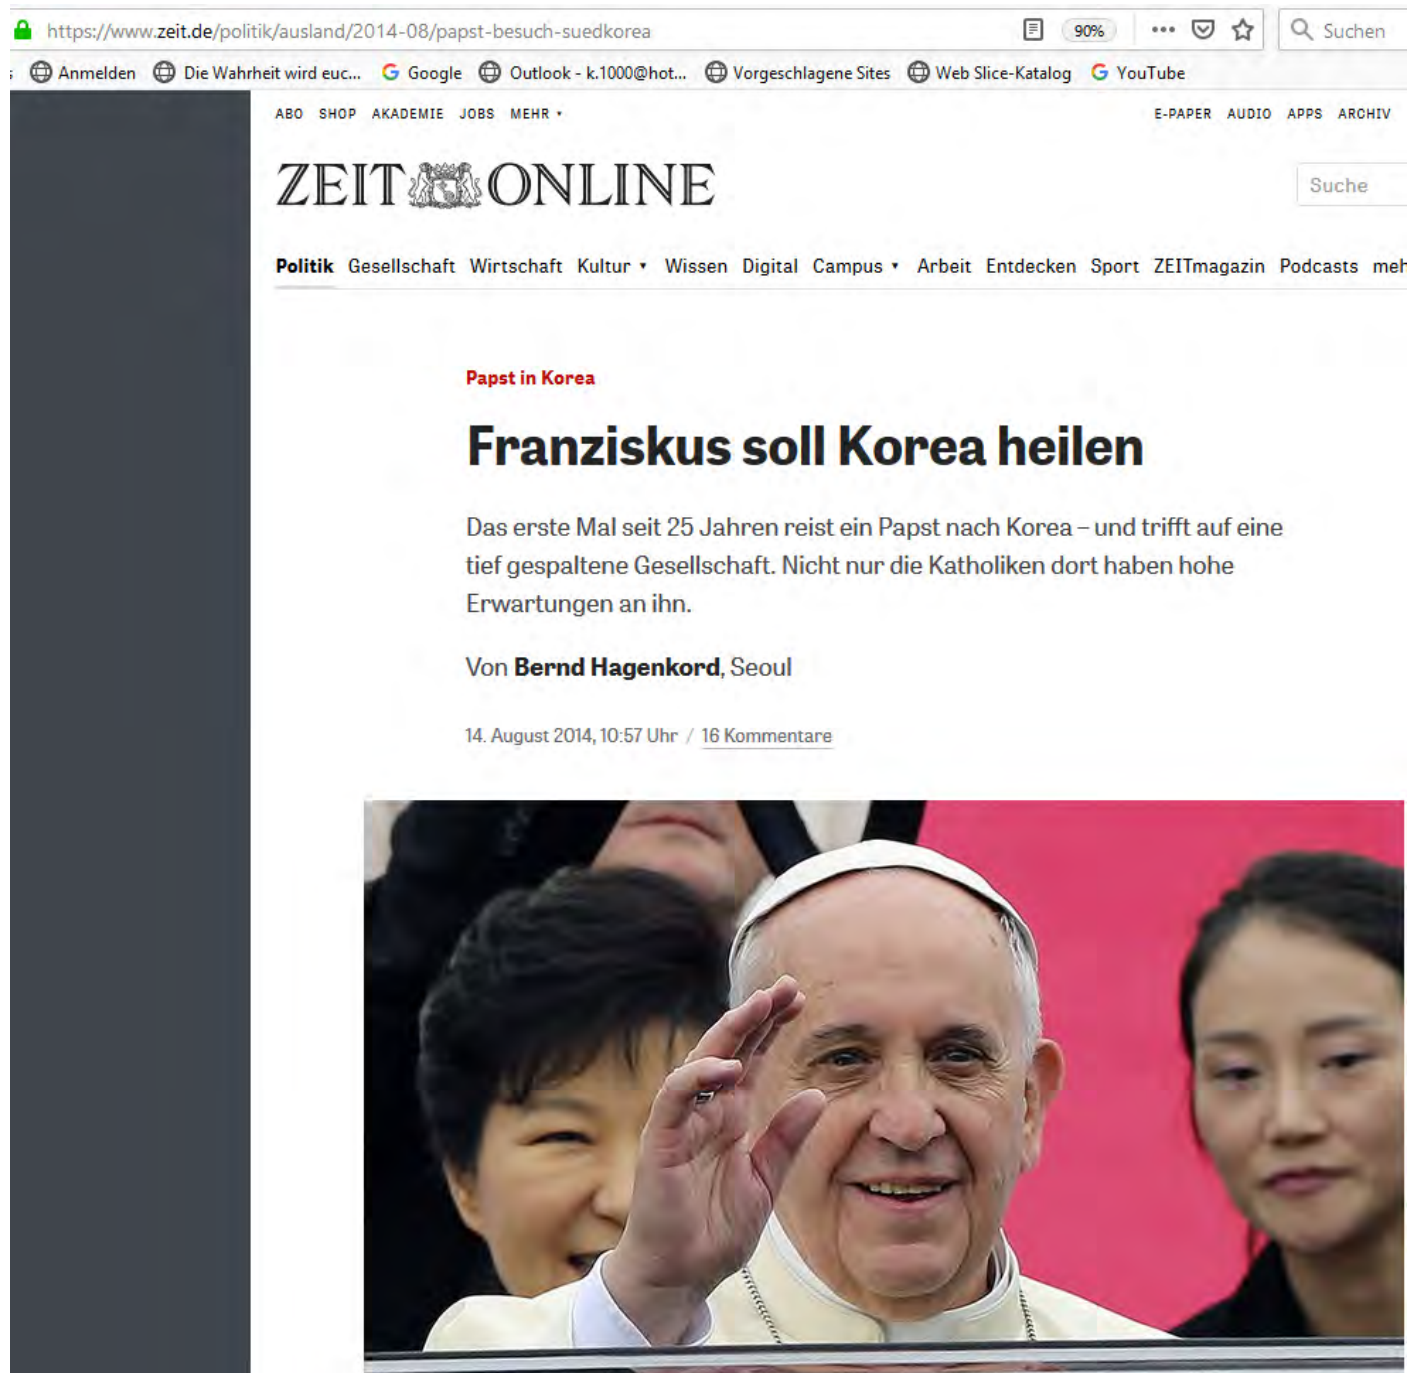

Catholic News Service VATICAN CITY — Pope Francis' choice of Albania as the destination of his first international trip in Europe reflects his trademark pastoral approach: Head to the peripheries, bring healing to the suffering.

But his Sept. 21 visit to the poor, Muslim-majority nation also will highlight, to a world increasingly torn apart by sectarian strife, a hopeful example of Muslims and Christians living in harmony. "The presence of the pope will say to the people, 'See you can work together,'" Pope Francis told reporters last month, praising the Albanian government's efforts to promote interreligious cooperation. "The pope values this, wants to show Albania as an example and encourage it," said Father Gjergj Meta, media coordinator for the Archdiocese of Tirana-Durres.

Pope Francis' Chilean Healing Mission

COMMENTARY: The Holy Father's meeting with the Chilean bishops echoes the 'emergency summit' Pope John Paul II had with U.S. cardinals in April 2002, but it's altogether different.
